Everyday moments
– **made better**

Sit down to peace, comfort and
warmth with the SMARTO bidet.

Worry-free
One-stop service

We install for you!

1 year
Local warranty

✓ A touch of luxury – every day

The SMARTO bidet uses gentle warm water and dry air to provide a superior, luxurious clean with every use.

With a soft closing lid and three temperature settings, you'll love your SMARTO bidet every day of the year – especially over the chilly winter months.

✓ Healthier for one and all

SMARTO provides a more thorough clean than toilet paper, which helps manage haemorrhoids and general genital health.

The bidet's moving wash feature also helps with constipation. And its dedicated feminine hygiene nozzle offers extra ease, comfort and safety during menstruation and pregnancy.

✓ Saves space – and cleans itself

The SMARTO bidet replaces your normal toilet seat which means you don't need the extra bathroom space (or plumbing pipes) to enjoy its benefits.

SMARTO also comes with an antibacterial nozzle that self-cleans before and after use – eliminating 90% of the e-coli and MRSA that sticks to the surface. Now that's smart thinking.

✓ Australian certified

The SMARTO bidet is trialed, tested and trusted by Australians far and wide.

Designed to meet Australia's high quality standards, the SMARTO bidet works under 240V voltage and 10 bar/1000 kPA water pressures. That means it's robust. And reliable.

✓ Fully installed and serviced

SMARTO is the only bidet that comes to you fully installed by expert technicians – every time. No need to spend extra on plumbers who may be unfamiliar with the bidet system.

And should you run into any issues during the warranty period, we'll be onsite to resolve it in a flash.
